Pedersens plan 75-slip Rte. 173 marina complex

by GLORIA DAVIS

Pending federal and state approval of permits requested from the U.S. Army Corps of Engineers, and the Ill. Environmental Protection Agency, Alfred and Florence Pedersen of Pedersen GMC will be opening a new 75-slip marina for the coming boating season, on the west side of Antioch.

According to Florence Pedersen, coowner, the Pedersen Marine will be located between the Antioch Bowling Alley and Sequoit Harbor Marina, off of Rte. 173, at the mouth of Sequoit Harbor on the channel leading to Lake Marie.

Two new buildings are already constructed with the insides now being finished. One will contain a marine store and a snack shop and the other will be used for boat servicing and

The Pederson's son Brian and his wife Patricia will be in charge of running the marine operation which is: expected to open in May.

Besides the 75 slips, the Pedersens are planning to build a concrete ramp, a hoist for boat repairs, a fuel dock and 650 feet of wooden walkway along the bank of the channel.

Plans also call for the construction of between 30 and 40 piers, 20 to 30 feet in length going out into the channel.

The permits will be issued if the IEPA feels that the building of the marina will in no way violate applicable water quality standards or have any negative impact on this Illinois body of water.

Dist. 34 transportation costs in county's lowest

by GLORIA DAVIS

At the last regular meeting of the Board of Education for Antioch Grade School Dist. 34, Supt. Donald Skidmore told the board that the cost of transporting students in Dist. 34 last year was \$69 per student, 80 percent of the average county cost of \$86 per student.

Dist. 34 spent on the average of \$390 for transporting each special education student in the district. According to

Emmons looks into future, asks input on growth

Emmons Grade School Supt., Jill Ballock, told parents that long range planning was a top goal of Emmons School. Because of more new subdivisions, younger families, and other factors, the administration can see that Emmons' enrollment will continue to grow. "How we plan and prepare for this growth is a matter that concerns us all." said Ballock.

In a letter sent to district parents, Ballock said, "Let me address briefly the short term answers to current enrollment "spurts" in some classes. You should know that our average class size is 23 students with a high-low range of 26 and 18. This year additional support has been given to some of the larger primary classes. Also, we are making optimum use of all available space in the building."

Bullock added that the Emmons School Board has been busy this year studying information that might help in making decisions in planning for increasing enrollment. to that end they have collected pertinent data.

Concerning attendance projections, utilitzing neighborhood surveys and other resouces we estimated that Emmons will reach an enrollment of 270 by 1992-1993. Current enrollment is now at 218.

Concerning the school's building capacity, based on a square footage formula the state lists the capacity at 255 students. However, this numbber does not take into account certain programs and materials which need room (computers, band, auxiliary programs). A facility utilization study by the state is currently being done; Emmons awaits those results. Additonal space will be needed to accomodate the enrollment increase.

According to Ballock, the board held a study session with the county superintendent to evaluate the positives and negatives of affiliating with neighboring school districts. On-site visits to Grass Lake Dist. 36 and Antioch Dist. 34, as well as information gathering have occurred.

"It's of obvious importance to assess the capacity of our septic and well system in light of increased use. Emmons systems have recently been thoroughly analyzed by a civil engineer. Results received this month indicate that with improvements to the existing system, we can handle the immediate growth. In order to manage dramatic enrollment increases and a building addition, a new spetic system and a new well will have to be added," reported Ballock.

She added that, with a 30 percent increase in enrollment in the past four years, Emmons has not experienced a commensurate rise in revenues. Likewise interest rates are not as favoraable as they were a few years ago. Emmons is in the second consecutive year of deficit spending due to

the increase in enrollment and relative stagnation of assessed valuation. Projections indicate that this will continue.

Ballock told parents, "obviously this information is only a synopsis of the indepth studies that the Emmons School Board has engaged in this year. The position of the board is to gather data from various sources and options (fact finding) so that the best informed decisions can be made. At this time the Emmons School Board has not come to any conclusions regarding how to meet the district's long range needs.

Ballock commended the school board by saying, "The Board, comprised of Phil Dahl, Clare DeMartini, Alice Gantar, John Petkus, Pam Pierson, Dick Ruck, and Sandy Steffenburg, is most conscientious in its goal of providing the best educational program for the youngsters that we can afford. We look at 1988-89 as the time when the decisions will be made. Your input to board members and myself is important along the way. I invite you to visit the school and to contact me if I can be of any assistance."

April SHARE sign-up starts now to April 8

Share food is a self-helpway to buy frozen meat, potatoes, vegetables, fruit, canned goods and more. The Antioch Exchange Club invites and welcomes all in the Antioch area to join in share food.

Emmons School digging into Greek mythology

Emmons junior high students are puzzle by Jamie Hubbard and a poem having fun while participating in a Greek mythology course.

During the class, students do a research on one of 12 gods and goddesses of Olympus as described in "Mythology" by Edith Hamilton. As a culminating project, each student-must develop an unusual and entertaining way to convey information to the rest of the class.

Some interesting projects have included an original song about Hades by David Nolte, a Hermes word search

about Aphrodite by Tricia Valters.

Chuck Miller constructed Aries' chariot made from Legos. Marc Gantar and Jamie Crank created crossword puzzles on Apollo and Hera, respectively. Angie VanderKerkhoff wrote a soap opera about Aphrodite.

The mythology class at Emmons is one of several exploratory courses offered to junior high students. The goal is to expose students to a variety of interest and knowledge in a small group, cross grade setting.

Monaville Rd. to close for extensive road construction

The reconstruction of Monaville Rd. in Lake Villa, sometimes called "the forgotten road," will turn the poorly constructed pavement built in the late 1800's into an adequate thoroughfare.

The road will be closed between Fairfield and Cedar Lake Rds. for 61 days beginning April 11.

"The road was never built to adequate standards," said Ron Fritz of the Lake County Division of Transportation. Monaville Rd. is one of many county roads that began as dirt, then gravel and eventually were sealed,

The detour route will be Fairfield to Rollins to Cedar Lake Rd.

Lake Villa Twp. Hwy. Commissioner Jim Semerling said he expects the closure to cause minor inconveniences to those driving to the Fox Lake area as Grand Ave. and Rollins Rd. can also be used.

The reconstruction comes as a second part of an \$839,000 project which began last year when the county relocated Monaville near Fairfield.

Semmerling said Monaville had been neglected for so long it carried the name of the "forgotten road."

Distributive ed winners

Distributive education class at Antioch High School did well in area contest with Dan Warren, Tabra Ray, Bill Patterson and Steve Balke taking firsts. Others competing were Kurt Ulm, Gary Davis, and Kim Perry and Coleen LaFleur.

Distributive education is many different things; it is a junior and senior level high school course that teaches one how to make it in the business

Distributive education shows students how to use proper communications with others, how to manage their own store or business,

and what are good and bad work habits when working for someone else. Distributive education teaches the proper way to build a display, how to create an ad and the techniques in

personal selling. These skills and abilities are learned by class instruction, working in retail businesses and participating in related club activities.

The distributive education class at Antioch High School is very happy about their club contest results this year. There are three different times in which a distributive education student

can participate in contest; in the area contests, the state contest and national contest.

Bascially, these contests involve all the things that are learned through class, club and work experience. Area contest is more like a trial event. Students get the feel of the thrill of competing and finding out what contest is all about.

Shooting letter

Scott Andrew Miller, son of Mrs. C. L. Miller, Antioch, a junior at Northwestern Military and Naval Academy, Lake Geneva, was awarded a varsity letter in rifle team by special order of Headmaster Daniel Snow as part of recognition of cadets for outstanding accomplishments in winter

In area contest, Antioch's distributive education students did quite well. The contest was held at the College of Lake County where they had Dan Warren and Tabra Ray place first

in the categories of general merchandising and food marketing. They also had Colleen LaFleur place third in apparel and accessories.

Dan Warren received a first place in merchandising, a first in sales training, a third in mathmatics. He also made top eight in sales and in general merchandising, management level, for the second year. Dan is State Champ and qualifies to go to the nationals at Salt Lake city at the end of April.

The second contest is the state contest where every distributive education student in Illinois can come and use their skills. State contest involves three days of contests and fun. It is a chance to meet new people and depending on how one does; establish a personal all

This year's state contest was at Springfield, , March 10, 11 and 12.

Antioch went in competing against 70 other high schools in Illinois. They came out doing very well in all the categories.

The rest of the students placed as follows: Kurt Ulm received a top eight in the state for sales and also received competency in communications in general marketing; Bill Patterson received a first place in display and a fourth for sales for apparel and accessories; Gary Davis received a top eight in sales and a second in sales competency in general merchandising; Steve Balke received a first place in human relations for fast foods and Kim Perry received a competency in human relations in finance and credit.

Safe Place wins in court Iwo women receive help,

by IRIS MAYFIELD

Available to all abused women, A Safe Place Lake County Crisis Center, helps women and children in their immediate and long-term needs, starting with the crisis line(312)249-4450.

Long-term needs are met through their residential and court advocacy programs.

Listen to two women who have found refuge and a chance at new lives, for themselves and their children, with help from the Crisis Center.

The first woman is a Crisis Center nonresident from the Northshore. Her husband verbally, physically, and sexually abused her and her three children.

Her pre-teen daughter returned home from a visit to her father with a sexually transmitted disease, one Christmas. "She has come home from a court-ordered visitation to her father covered head to toe with bruises."

"I had an experienced divorce lawyer. I kept telling him to file for a divorce but he gave me other advice." She added, "He gave this same advice to others. I am not an isolated situation with this lawyer."

This woman's counselor at A Safe Place. Nancy Degen said, "The husband abused her and her children and used the court system to continue the abuse."

The woman said the judge told her that she wasn't to interfere with the visitations in any way. She said, "I have a position of authority and it was a blow to me to be considered invisible and mute." She further related how her husband beat the eldest boy and kept him a prisoner, unable to return home from a visit with him.

Counselor Degen said, "Fighting her husband was very difficult because he is very bright and has a lot of money." She added, "It was one of the worst battles we've ever had."

With the assistance of a court advocate through the IPDAV program, this woman was successful in court. She said, "I got tips on how to deal with the situation in court. When you're under

tremendous stress, you can't remember your own name." Now divorced, she said the constant harrassment from her ex-husband has stopped.

Degen said, "She's worked through the court system and they believe her and have limited (the father's) visitations to an hour with a therapist in charge.

A second woman experienced the breakdown of family dynamics through verbal abuse. "My first contact with A Safe Place was over the crisis line. I called. It was

hard. I didn't know if I would fit in here, but I felt good right away."

This eight-week Crisis Center resident said she was miserable in her relationship, but was afraid to leave it. "I alone," she said.

"I was self-conscious about my appearance and he would tell me how ugly I was." She said he was very jealous and threatened to kill himself if she left him.

This woman described the relationship as an unhealthy, mutually dependent relationship

that was destructive for him, herself, and her children.

Merit steam building

forces are being brought to focus on a long-standing issue in Illinois-merit selection of Judges. Gov. James R. Thompson has called for hearings subsequent to a vote by the full Legislature before May 6 on a proposed Constitutional amendment establishing merit selection.

Elected representatives will have the benefit of the findings of the Task Force on Judicial Merit Selection. The Task Force has fashioned a proposal designed to respond to philosophic questions raised about merit selection and critics. There is bi-partisan sponsorship line up to bring the proposed amendment before the Senate.

Without question, there are appealing features of the proposed amendment. Merit selection "sounds nice." In a number of "toe in the water" attempts to utilize merit selection---filling vacancies, for example---merit adopted.

Massive political, legal and media selection results have been favorable. What we have trouble dealing with, though, is that merit selection of judges means removing another office from the ballot where voters have a choicethe American way-and merit selection, with a heavy bias toward the legal fraternity, flies in the face of public concern about our government being "lawyered to death."

We see nothing demeaning about candidates for the bench being required to go before the electorate to present their qualifications. Under merit selection, judicial candidates will go before a merit board, undoubtedly heavily loaded with lawyers. When the electoral process is followed and judicial candidates go to the people conscientiously and enthusiastically, our entire system benefits and the people get qualified judges.

It is difficult to see how the people are going to be better off in their every day lives if merit selection of judges is

Controlling spending

Politicians in the General Assembly are spending our money faster than we can send taxes to Springfield.

According to the Illinois State Chamber of Commerce, over the past three years, revenues produced by existing taxes have climbed at an average rate of one percent per year after allowing for inflation.

Spending, however, increased 4.2 percent in 1985, 6.6 percent in 1986 and 1.7 in 1987.

Controlling spending will be one of the major concerns of the 1988 legislative session. The fight to hold down government spending never seems to end.

Besides the spending bugaboo, business leaders around the state see the following propositions as major issues before the Legislature:

- Maternity or parental leave Plant closing legislation

Mandated health benefits

-Restrictions on sale or lease of industrial property.

None of these questions involve taxation, but all are "pocketbook" propositions. Sooner or later, we get hit in the wallet.

GOP heals after **Bell bows out**

by BILL SCHROEDER

In the case of the battle for Lake County Republican chairman, the healing process began almost before the execution took place.

An old warrior, George Bell, pressed into service because a young charger backed down on engaging in combat with controversial GOP boss Bob Neal, counted votes and counted himself out when the tally stood against him 22,000 to 16,000 in the voting process used to select a county chairman for the next

Bell, supervisor of Fremont Township, Fremont Republican chairman and a former County Board leader, was the choice of independent Republicans after State Rep. William "Bill" Peterson of Vernon Township begged off due to the press of politics. Peterson made a reasonable decision because he's already coupling duties as Vernon supervisor and township GOP chairman with responsibilities in Springfield. Is Bob Neal listening?

Bell has no hard feelings. "I ran against Neal because it was a chance to do something good on my terms. It just didn't work out," he remarked pragmatically. "There was no way I

could have pulled it off."

Practical and resourceful politician that he is, Neal moved quickly to heal any wounds remaining from the Bell challenge. A 7 o'clock breakfast Thursday morning at the Seville on Waukegan's west side provided an opportunity to bury the hatchet. Attending were Neal, Bell, Peterson and two township leaders who worked hardest to elect Bell and bring a new look to the Lake County Republican that will enable pop to become an exparty, Mary Beattie of Shields Township and Pat Uriarte of Libertyville Township. They urged openness in operation of party affairs, stressed that not all Republicans subscribe; to Neal's "lock step" style and made no

bones about him revising his thinking about the best style of county government. Above all, the Bell group posted a "Cook County Keep Out" sign, referring to big Cook County developers who fueled the county executive treasury.

Bell might have had a chance if he had reached an accommodation with the father-son team directing Warren Township politics, Bob and Shawn Depke, who have a long held antipathy toward Neal. In the end, though, it was a case of the Depkes disliking Bell's independent Republican supporters like Mike Graham, Norm Geary, Bruce Hansen and Rich Anderson more than Neal.

After it was over at the party convention, words of praise were heaped on Bell. "They said all the nice things too late," quipped Bell later.

MAKING HISTORY---Got your tickets? That cryptic question has only one meaning in this locality. We're referring to Monday, July 18. The place: Wrigley Field. The event: first night game in history at Cubs Park. Yes, we've got a line on some tickets and expect to be on hand when baseball history is made. Now if Cub fans have a team to go with the shiny new lights, it'll be something.

Hope Apr. 1 isn't joke on folks needing CHIP

by JOHN S. MATIJEVICH,

State Representative

The Comprehensive Health Insurance Plan (CHIP) is supposed to begin on April 1. It is a program to help the hard-to-insure with health insurance coverage. People with longterm medical illnesses have found such ailments have reduced family resources and were anxiously awaiting the plan to help with their problems.

The CHIP Board, made up of the governor's appointments, voted to urge the legislature to approve \$3 million for start-up costs. Their vote was in spite of Gov. Thompson's recommendation that the Board ask the legislature to delay the April 1 start.

The legislature didn't provide the \$3 million at its one-day session last week...but it didn't delay the starting date either. That means that a plan to help the needy will begin but with no funds to begin processing claims.

It is estimated that somewhere between \$10 million to \$30 million will be needed to fund the program during the first fiscal year beginning on July 1. Thompson didn't put in a cent for the program in the budget that he provided us last month.

It all sounds like an April Fool's Day Joke...but it's real. Of course, everyone is blaming everyone else. The governor says the legislature shouldn't start needs.

something that it can't guarantee that it will fund. Democrats, at least, say they tried to approve the start-up funds.

A parliamentary move to vote for the necessary funds needed a three-fifths vote. All Democrats voted for it, but that wasn't enough-which means that the governor pressured Republicans to block the funds.

There is some politics behind it. The CHIP program was proposed initially by Attorney General Neil Hartigan, who eyes the governor's spot. When the legislature passed CHIP, Thompson was running for re-election so he signed the bill. He won the election and his zeal for CHIP seemed to fade, the best evidence being the long time it took for him to name the CHIP appointments.

What happens to CHIP now? I can't believe that the state will abandon the program. The legislature isn't due back before the April 1 start-up date, so the ball is in Thompson's court. My guess is that he'll find the funds to begin implementation, and then as soon as the legislature returns it will have to approve a supplemental appropriation bill. If all of that doesn't happen the "April Fool's Day Joke" will become one of the cruelest hoaxes perpetrated against people with long-term health

Sheriff Babcox understood, used power judiciously

WITH THE PASSING of Sheriff Mickey Babcox, Lake County has lost another of that generation of leaders who were seasoned by the war years.

That generation is special because it understands the nature of power and its proper use. When America entered World War II, had it not been powerful, then Hitler's Germany might be ascendant. But America's power was only useful as a tool to accomplish a great end.

Today, there is great ambivalence about power. Many good people who are capable avoid it because they see it as a bad thing. Others seek it as an end in he used it in its proper role - as a tool to itself. But power is nothing more than a tool that can be used for good or evil depending upon whose hands it is in.

Mickey Babcox had no compunctions about the use of power. Long before he was sheriff, he was the "Boss" in Lake County. But he was a boss who wanted to be sheriff - unlike his predecessor, Tom Brown, who was sheriff that wanted to be boss.

Brown, who originally campaigned on the theme that he was a professional law enforcement officer, spent a lot of time politicking and precious little time sheriffing. He left the department more politicized than it had ever been.

Babcox, a powerful politician, came in and cleaned up the department. He had wanted to be sheriff since he was child and he used the power he had amassed to make the sheriff's department into an office that voters could take pride in. Unafraid of power,

JUST POLITICS

Charles Johnston

accomplish a great end.

There is a lesson to be learned from Babcox's life. It is that if the good and the strong abdicate their responsibility, then the bad and the strong will take control.

CLINTON GRINNELL, BABCOX'S hand-picked chief deputy, who is now the acting sheriff, is a sure bet to win the Republican nod for the special November election. He is almost as sure a bet to beat whoever the Democrats put up against him.

Grinnell is an excellent, professional law enforcement official. At a break-

fast meeting last summer, Babcox told me, "I set policy and handle the politics, and Clint handles the administration."

In this election, as least, Grinell will get a huge boost because the ghost of Babcox will cast a long shadow. But Grinnell is not noticeably politically skilled. When he has to run again in 1990, he will be on his own and will have to develop those skills in order to avoid being a short-term sheriff.

Though some might scoff, politics is long, hard work. The successful politician must spend many late nights away from home meeting and greeting his constituents. It is not enough to run his office well. He must also be sensitive to the needs and concerns of all the people. He must accustom himself to being the brunt of attacks, both fair and unfair, while maintaining his composure and sense of humor. It is a skill unto itself.

Grinnell is fortunate. He will likely have two and a half years in which to develop those skills and to decide if it is worth it. But in 1990, a politician will be sheriff.

WILL A CHANGE in leadership signal a change in the Democrats fortune in Lake County? New

Democratic chairman Betty Ann Moore of Lake Bluff has strong ties to the last chairman who made strong inroads in this county, Hub Stern. Her ties are indirect - actually she works as an aide to Hub's wife, State Rep. Grace Mary Stern. Of course, Grace Mary Stern is the only Democrat to ever approach 65 percent of the vote in a county-wide election. She accomplished this feat when she was Lake County Clerk.

From this vantage point, the first two priorities for Moore should be candidate recruitment and public relations. The Democrats have fielded a lot of lackluster candidates in recent years and have had difficulty getting out press releases about what they intend to accomplish. The best message is useless if it never gets out.

A FINAL WORD on Mickey Babcox. After he was brought home from the hospital just before he died, the late sheriff wasy laying in a bed in a small room at his home. In spite of the I.V.s and monitors, he got out of bed and stood up, then collapsed, never again to regain consciousness. He met his last test as he had so many before, head-on with his feet planted firmly on the ground.

Letters To The Editor

Not 'malcontents'

Editor:

There is a group of us out here in unincorporated Lake County who have been called "malcontents" by some short-sighted local governmental of-

to tolerate being lied to, pacified, cheated, pushed aside, bounced from one local governmental agency to another, and treated like a second-class citizen by the very people who have been placed in office to serve me, then I indeed am malcontent.

I would be content to be reimbursed the almost \$4,500 it took to correct the incompetence and irresponsibility of my builder, Thomas F. Santino, of Harbor Ridge Development. This expenditure would not have been neccessary if Robert Streicher of Lake County Building and Zoning has stood by his written order requiring Santino to do my owrk. When Santino refused, Streicher backed down. Then began a series of lies to cover his irresponsibility in not upholding his order.

I would be content if the State's Attorney's Office had listened to my numerous pleas to force Streicher to red-tag Santino, and let me present my case. Instead, Streicher told the State's Attorney's Office I should be happy that he did not red-tag me, as the current homeowner, even though the house was under warranty. No investigation.

I would be content if the 10 members of the Lake County Board whom I contacted would have made some effort to check the veracity of my complaints--aside from merely asking Streicher, whose written and verbal word is worth absolutely nothing. No investigation.

I would be content if Robert Streicher's Lake County Building and Zoning had an organized and complete filing system. What exists in my file is sketchy at best with no indication at all of the three inspections concerning my complaint, no correspondence, no notes regarding telephone messages-not even a copy of the order itself, which is definitive.

I would be content if our local governmental agencies did not spend their time covering up for each other. I have literally begged to be able to present my documentation, pictures, welcome visits, etc. but am informed by the State's Attorney's Office that I

cannot present my case without authorization from Streicher.

If the Lake County Board reappoints Streicher in May, Streicher will be permitted to keep right on being irresponsible and not being held accountable for that irresponsibility. And If "malcontentment" means refusing 'I, and others like me, being labeled "malcontents", will continue to be considered troublemakers because we are dissatisfied with a system that is working against us rather than for us. Something is very wrong with such a system.

Wealth no determiner

Editor:

One of the most gratifying results of the March 15 election was the loud and clear message: vast wealth cannot buy an election.

Jack Martin, wealthy businessman, shopping center owner and member of the Libertyville Plan Commission spent a young fortune on three political issues; the Lake County Executive Officer referendum, the Vernon Twp. Open Space referendum and lastly, his own candidacy for Republican Precinct Committeeman in Libertyville 153. Reports in the County Clerk's office indicate he contributed nearly \$9,000 in cash and in-kind services to the ill conceived Lake County Executive office referendum. Guesstimates from Vernon Twp. indicate another \$10,000-\$15,000 was pumped into that anti-Open Space campaign by the Libertyville Twp. Taxpayers Committee in which he and Pat Connors are the only registered members.

Last was his overwhelming defeat for Republican Precinct committeeman after a blitz of first class mailings and a rather clever and costly distribution of red, white and blue flag waving, name engraved campaign pens.

And, it may even cost him more than those campaign dollars spent. Rumors have it that many angry Vernon Twp. residents, outraged by his interference in their business; may organize an area-wide boycott against patronizing the stores in his shopping centers. As money cannot buy health or happiness, neither can it buy elections as Jack Martin now knows.

Wetlands aid in flood control, says Hartigan

Attorney General Neil F. Hartigan has filed objections with the United States Army Corps of Engineers to a plan that would destroy 96 acres of wetland along the Suburban Country Club tributary of the Des Plaines River in Lake County. He has also called for a public hearing into the plan.

The request was filed with the Corps of Engineers by Lake County Grading, which says it wants to develop the site into a golf course, multi-family residential subdivision, and also to open a sand and gravel mine.

In his objections to the plan, Attorney General Hartigan noted the special status granted wetlands under state and federal law. In addition, Hartigan pointed out that wetlands are an important medium in the battle against floods through their ability to retain flood waters.

"The disastrous flooding of portions of Lake County is still fresh in all our minds," Hartigan said. "Some of that flooding is due to the destruction and drainage of the wetlands along the Des Plaines River. Intact wetlands provide an effective means of floodwater retention, and these valuable acres should be maintained for that reason."

"It is also interesting," Hartigan said, "that the Metropolitan Sanitary Dist. of Chicago, in cooperation with the Corps of Engineers and the U.S. Dept. of the Interior, are spending millions of dollars to construct flood control structures along the Des Plaines River. These stuctures will be more effective if this area of wetlands is preserved."

Hartigan pointed out that United States Environmental Protection Agency guidelines in relation to wetlands say the destruction of wetlands may represent an irretrievable loss of valuable aquatic resources. Also, Corps regulations prohibit the discharge of fill material into inland waterways if there is a practicable alternative.

"Lake County Grading will have to destroy the wetland qualities of this site to carry out its plans," Hartigan said. "In addition, there has been no evaluation of the areas habitat value nor any proposal to mitigate any adverse affects, as required by regulation. The destruction of this area is simply too high a price to pay, and this application should be denied.'

Hartigan is also calling upon the Corps of Engineers to hold a public hearing so that interested parties can comment on the plan.

Hartigan has previously moved to protect the wetlands of the environmentally unique Cache River Swamp in Southern Illinois and an area of wetlands in Rock Island County.

"There are some estimates that Illinois has lost almost 90 percent of the wetlands that were here before settlement," Hartigan said. "We need to protect the little that is left so that this important heritage remains for future citizens of Illinois."

3 schools take 1st in tourney

Northwest Suburban Conference held the second round of its All-Academic Bowl. The first round was held at Johnsburg High School last fall.

The contest followed the Illinois High School Assn. state tournament rules for all-academic state-wide competition. Each school in the conference competed against every other school. Each round consisted of toss-up questions followed by a bonus questions for each toss-up correctly answered. Questions were asked in the areas of math, language arts, science, social studies, fine arts, sports, and general information.

The competition was close with Marengo, Lake Zurich, and Marion Central caputuring a share of first and Round Lake sharing second place with Johnsburg. Grant, Grayslake, and Wauconda also competed.

James Prault, principal of Round Lake Senior High School said, "The NWSC wants to be recognized as placing a high value on academics in addition to the traditional athletic activities that every conference participates in. We think we do an excellent job in this area with competitions in math, spelling, the Academic Bowl, and our selection of All-Conference Academic teams from our varsity letter winners". Prault stated further, "The NWSC is a very active conference. We are a close-knit group of schools, with fine coaches and staff to be proud of."

36th sheriff

As predicted, Chief Deputy Clinton Grinnell became Lake County's 36th sheriff to succeed late Robert "Mickey" Babcox. Grinnell was appointed in unanimous action by Lake County Board. He will serve until December when unexpired term will be filled in November general election. Grinnell resides at 27802 N. Owens Rd., Fremont Township, rural Mundelein.

Neal is GOP chairman, Bell concedes

by DAN BECKER

Somewhere between the political lobbying and singing of Happy Birthday to Senator Adeline Geo-Karis, Robert Neal was unanimously elected for a second term as the Lake County Republican Chairman.

The determined battle for the seat by Fremont Twp. Sup. George Bell, ended in concession after the tallies his supporters compiled came up short. But Bell said that the strong support he did receive should give Neal a message.

"I did have a lot of support. A lot of good support. And I think this this will send a message to Bob. The leadership has been lacking in the party, and a lot of people saw it wander away. People were anxious to make a change in leadership because they became disenchanted with Bob, and believed he wasn't communicating. They thought he was moving too fast. If he doesn't shape up, he will know he will be shipped out. He has to start listening more, and cooperating," Bell said.

Geo-Karis backed Bell by noting "if Bob doesn't do more listening, I'll kill him."

In Bell's concession speech, Bell said that it would be a waste of time if he continued with his effort. "I apologize to my supporters. They tried to get me up here on a permanent basis. I like to win. But for the benefit of all, I concede."

More than 40,000 registered voters were represented at the Republican chairman election, and "I surely gave Bob an idea how he must change".

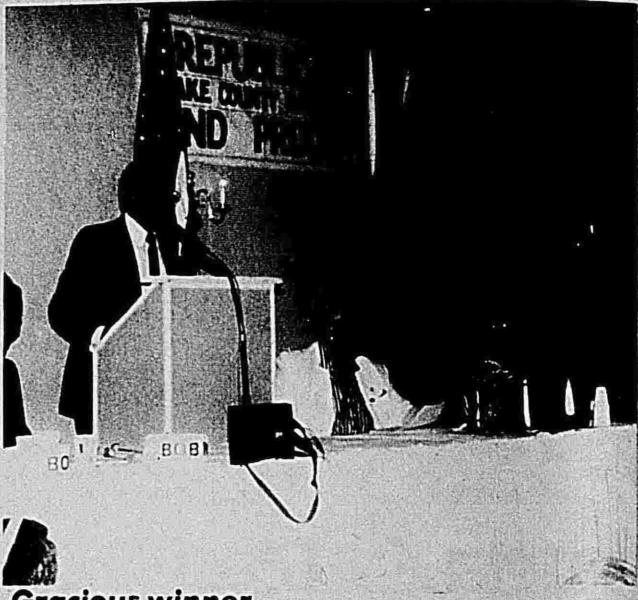

State Representative Robert Churchill announced the nomination for Neal.

"Bob is the man who will lead the party for the next two years. This is a very large and populous county. It is a thankless job and subject to complaints and demands, without any compensation. We are very fortunate to have two people who wanted to run for this seat. This job takes a leader, and a man of experience who knows the ropes. We have such a person who agreed to serve the county last time,

and will do so for the next two years. Robert Neal," Churchill said.

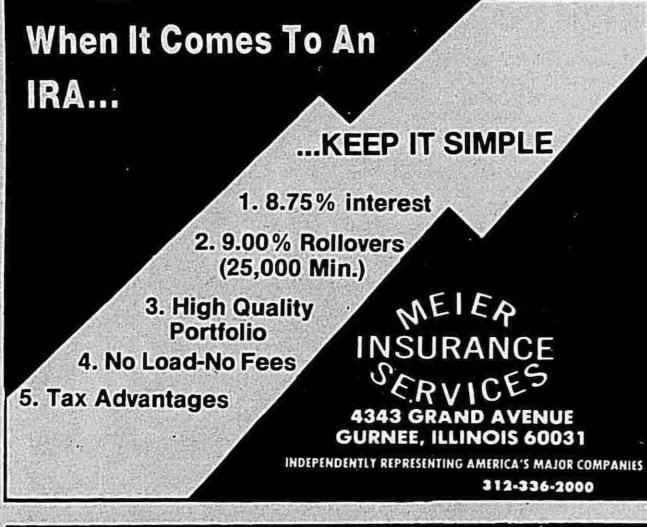

Former Lake County Board Chairman James LaBelle said that he has seen Neal come from a friendly adversary to a supporter.

"Bob can deal with people in a direct manner. And through this unanimous ballot, this room shows the heart of Lake County. And we're behind Bob." LaBelle said.

Gracious winner

Reelected Lake County Republican Party Chairman Bob Neal thanks those who supported him. Fremont Twp. Sup. George Bell conceded race for chairman. Senator Adeline Geo-Karis and Republican Office Staff member Suzi Metzler (right) listen to Neal's acceptance speech.

Ex-fire chief finds cards hot business

by KAREN WILTBERGER

When John Schweda left his job as Lake Zurich's first full-time fire chief in 1983, the last thing he expected to be was owner of three successful businesses—two Hallmark stores and a Eurotan salon.

But sometimes that's how things go, particularly for someone as flexible and active as Schweda. "I wanted the job as fire chief, but it just wasn't for me. So I left, " said Schweda, 48, who spent half of his 26 years on the fire department as chief.

After he left, he became a school board member on the Lake Zurich School Dist. 95 Board of Education and he spent more time with his longtime interest of real estate investments.

And through real estate he stumbled into his business ventures. Three years ago he took over a Hallmark store because it was in a building he bought in downtown Lake Zurich.

"It seemed like a real pleasant business, healthier than the tavern business," said Schweda, third generation to operate a family liquor store and tavern.

One Overlook Point to open for tenants soon

be ready for occupancy this month, reports Van Vlissingen and Company of Lincolnshire.

The 213,000 square foot building, appropriately named One Overlook Point, has six stories with 19 corner offices per floor that overlook a deep clear blue 35-acre lake as well as the 300-acre Lincolnshire Corporate Center and the plush Marriott's Lincolnshire Resort.

Built near One Overlook Point is an outdoor amphitheater available for business meetings during the warm summer months. Alongside the building and connecting to the rest of the Lincolnshire Corporate Center is a jogging and walking path extending for miles with benches placed near the trail for relaxation at scenic points.

One Overlook Point features include underground parking as well as spacious outdoor parking hidden by architecturally designed berms accentuated by trees and other plant life. A two story carefully landscaped marble atrium with an upper floor bridge blends into the exterior entryway of the building.

The structure will have 13 heating and ventilating systems to reduce energy costs and to allow for seven day

One of the most spectacular office a week usage if tenants require it. buildings in the Midwest is expected to There will also be a separate freight elevator, large hallways and a deli restaurant for both sitdown and takeout meals. The building lower level will have substantial storage space available for tenants.

Tenants will be able to participate in all of the activities in the corporate park such as baseball, bowling and volleyball leagues and picnics. The Lincolnshire Corporate Center, one of the most successful corporate campuses in the country, is recognized for its outstanding beauty and attention to architecture, landscaping and roadway enhancement and safety.

Plant life around the building will include maple, ash, sumac, crabapple, dogwood, and lilac trees. The exterior wall construction is of spandrel panel of stone-tan and reflective green glass with a thermal barrier. Two terra-cotta colored accent stripes wrap horizontally around each floor.

Ceilings are nearly 13 feet high to allow ample room for data and communication cable needs. Lamphere added that practically every convenience has been designed into the building to meet the needs of its future tenants and that he expects One Overlook Point to become the prestige address.

Fitness Flamingo heralds hot new concept in health clubs

by BILL DOTSON

"Its not just another health club." How many times has that phrase been used to advertise another health club? Yet, an examination of the new Fitness Center at 101 S. Greenleaf in Gurnee suggests that there is in fact something different about it.

Even its name sets it apart from other fitness centers. Flamingo's owner and president, David Kline, who also operates K.C. Construction Co. in Waukegan, says that was the intent.

"We wanted something that sounded completely different because we're offering something different," Kline said.

The club is set to open in about six to eight weeks, although aerobics, karate and yoga classes will be in session while construction on the rest of the facility is underway.

What makes Fitness Flamingo stand out? "We're going to have a very tropical atmosphere," Kline said, "with large palm tree trunks, a juice bar that seats 30-35 people comfortably and serves fresh fruit drinks, nutritional snacks, and herbal teas, and an agaurium behind the bar with real Amazon-type fish."

The Flamingo will also boast the very latest available in fitness equipment. "We're the first health club in the county to have the new computerized line of machines from Paramount,"

electronic monitoring of vital data.

The club will also feature liferowers, with which the user goes through the motions of rowing a boat while watching a computer-animated image, and stairmasters, which allow the user to "climb the stairs" of any building programmed into the system.

Another innovation offered at the Flamingo is a lap pool with a current machine. With this feature, the pool can accommodate more people at once as they swim against the current, virtually in place.

"The full facility will be run by computer," Kline said. "Even the membership cards will give complete readouts on the member- when he joined, what his progress is, how many times he uses the facility. Also, whether he's paid up," Kline quipped.

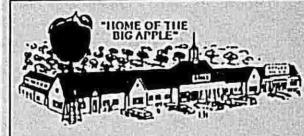

Kline is proud of the club's staff, as well, which will include aerobics and fitness instructors Kathy Morrisey and Lisa Barrosa, chiropractor Dr. Richard Schultz, karate teacher Paul Haroian, and massage therapist Dave Williams, who is also Jim McMahon's physical therapist.

Kline is very excited about public response and urges people to take advantage of the pre-opening special prices otherwise "they'll pay more once we really get going. At that point, I won't have to sell it anymore. It'll sell Kline pointed out. The machines offer itself. We've got a very hot concept

North Point Marina gets ready for its new season

* The North Point Marina Committee of the Zion-Winthrop Harbor-Beach Park Chamber of Commerce reports that the marina is progressing with much activity.

A group of boat slip owners interested in the Yacht Club formed a steering committee to continue discussions, remarking that prospects look good to have a Yacht Club sooner than anticipated from the original schedule.

The "Spring thaw" has made way for marina basin construction to begin have working drawings for their again, and once that phase is com- facility within the month.

pleted, Ellis Construction of Gary, Ind., will enter the scene as the Second Phase contractor. They will be doing all of the roads, landscaping, parking lots, and docks beginning around May 1. Phase 2A will be bid soon for the water, sewer and electrical, to be awarded in June.

The marina anticipates opening with 650 slips, currently having deposits for 375 slips. The north portion of the basin will be opened first. Skipper Bud's will

Singles have tobaccoless fun

The Non-Smokers Singles Club was originally organized in 1983 by Robert Schaewe, Wauconda, who felt that single non-smoking people should have the opportunity of meeting other nonsmoking singles at their own club.

When Schaewe attended other singles clubs, he found that it was often hard to find a table reserved for non-smokers back in 1983.

With the new "in" thing being to not smoke(for health reasons), Schaewe would probably not have quite as much trouble finding non smoking areas at meetings now.

From a handfull of charter members. in five years, the club has grown to a membership of 50 and it also maintains a long mailing list of others who contact the club about its activities.

The board members and officers serve without compensation but to have speakers and other entertainment and also to reimburse hosts and hostesses at parties, members and guests are charged a small admission fee.

For anyone interested in possibly joining the club, a good place to start is to attend one of the regular meetings where the atmosphere is low-keyed and relaxed. "You will find our group comfortable to be with as we try to make newcomers feel welcome," says club publicist Nan.

The regular meetings of the club are held monthly at Riverside Park Clubhouse, 870 Country Club Dr., Libertyville, usually on the third Sunday of each month. The club also has house parties, dines out and many

other special activities each month. The Band" sound of Freddie Mills and his next meeting will be held at the clubhouse starting at 4 p.m. It will be a pot-luck dinner and an evening of socializing and discussion is planned. Critic's Choice In... Lakeland

'Pursuit' theater's best show effort

by Tom Witom

In a nice bit of stagecraft, playwright Simon Gray concludes "The Common Pursuit" with a flashback in which his youthful protagonists rhapsodize optimistically about the future.

"To survive, we must know what it is we're going to give the world," the characters agree.

How this unsuspecting group of Cambridge colleagues plays out its life forms the meat of the new production at Chicago's Steppenwolf Theatre. And the drama, as directed by Rondi Reed, offers plenty to chew on.

Most of the action occurs in the offices of the Common Pursuit, a struggling poetry magazine that aims for the cream of the crop but must ultimately cater to the mediocre.

Stuart, played by Rick Snyder, is the highly principled and uncompromising editor who inspires a bit of hero worship. Ultimately, he comes to realize the sorry hand fate has dealt him: "I can't do anything I'm meant to do."

His cohorts find success as they envisioned it equally elusive. One has the scholarship and judgment to author a book but not the imagination. Another longs wistfully for the simple life of a vicarat the same time abusing his body with worldly vices.

Yet another with a great zest for life exchanges one fatuous wife for someone just as fatuour.

While much of the play is redictable, it's by no means boring. It has a steady rhythm that keeps it moving, well punctuated by revelations of infidelity, impotence, bankruptcy and the like as Marigold (Sally Murphy), Martin (Tim Hooper), Humphry (Gerry Becker), Nick (Alan Wilder) and Peter (Jim True) shed the last of the masks protecting their psyches.

"The Common Pursuit," making its midwest premiere, is probably one of Steppenwolf's most crowning achievements in the past few seasons. It is scheduled to run through May 8.

Have cake and eat it too on Lakeland Stardancer cruise

It is possible to go on Lakeland Newspapers Cruise and lose weight at the same time. Just ask your waiter for a strict fruit and vegetable diet, and the Stardancer chef will oblige. But if you're like

most people, you'll simply succumb to the mouth-watering delights offered in the elegant windows of the world dining room.

Pancakes, omelets, smoked salmon and ham, freshly baked croissants and sweet rolls and a delicious array of melons and tropical fruits are on the breakfast menu. The dining room will serve you a six course luncheon if you wish and an international cuisine-French, Italian, and

Mexican is featured at either a 6:30 or 8:30 dinner seating. Of course if you prefer, you can have a continental breakfast brought to your stateroom or a hamburger out on the pool deck for lunch.

And don't forget that in aerobics classes and every night there's a knock-out late night jogging track with buffet that's every bit as delicious as it looks.

So how do we keep from having to waddle down the gangplank when the Stardancer finally returns to her home port of Los Angeles? By occasionally passing up one of those succulent desserts, and by taking advantage of the most fully equipped health club afloat. There are two saunas, three whirlpools, a massage to enjoy working them room and of course, a swimming pool. You can weight can you gain in work out with weights or one week, anyway?

Much to see in the Florida Keys

by JIM WARNKEN, PRESIDENT NORTH STAR TRAVEL, INC.

Eighty some years ago a man named Henry Flagler had a dream. By 1912, 27 million dollars poorer, his dream was a reality.

"Flagler's Folly" was to build a railroad connecting Florida's mainland with Key West. It was to extend 113 miles across 29 Islands, utilizing 41 bridges. Mr. Flager's dream was short lived. A hurricane turned his creation into a mass of twisted metal shortly after it was completed.

The remains of the railroad to the sea was to be the bed of yet another manmade wonder, the overseas highway.

Head south from Miami on Hwy. 1 about 40 miles to start your journey of Island hopping by car! You'll cross bridges as long as seven miles. On the right is the Gulf of Mexico, to the left is the Atlantic Ocean.

Your first town is Key Largo. Remember the old Bogart-Bacall movie? Speaking of Bogart, the boat used in the movie The African Queen is "anchored" in the parking lot of the Holiday Inn at Key Largo. For you divers, John Penekamp Coral Reef State Park is here. If you're the type that would rather stay dry, you can take a glass bottom boat ride to the reef.

At the end of this waterway highway is Key West, the home town of Tennessee Williams. Key West's residents have also included Calvin Klein, Dustin Hoffman and Vincent Price. Jimmy Buffet even started his career here.

The trip through the Keys offers such interesting sights as tiny deer the size of dogs, a shark research institute and some of the best deep sea fishing found anywhere. Not a lot of nightlife, though,

You will find some outstanding restaurants. My favorite is Erik Jorgensen's at mile marker 85,5 under the bridge at Windley Key. Erik has taken his houseboat and furnished it with peruvian rugs, handcarved leather-backed chairs, Copenhagen china and lots of crystal. Erik was once chef at Miami's Chez Vendome. Try the red snapper with the key lime pie for dessert.

Gordon Miller, Round Lake, won three of four heats and captured the second annual American Power Boat Assn.'s Winter National Championship in the always competitive A Stock Hydro Class at Puddingstone Reservoir near San Dimas, Calif.

Miller, who was powered by an Evinrude 15 horsepower engine, won both of the preliminary heats with ease and then made it three heat wiins in a row by scoring a vitory in the first heat of the finals.

His first heat time was the fastest of the day in his class and he followed that up with a second place finish in the next heat to virtually sew up the winter national title. He was also fourth overall in the A Stock Runabout Class where he had fourth and sixth place finishes.

Wins dating game

Derek Lindstrom, 25, Gurnee, was chosen by Thyra Ladyman to be her date in London this summer, last month when he appeared on national television on the Dating Game. Lindstrom does construction work for his father, Ernie Lindstrom, and was in school at Long Beach State when he realized an ambiton he had had since he was six years old, to appear on the Dating Game. He is a radio and tv major and since the show has been interviewed by many newspapers and radio shows. He feels this might springboard his other ambition, to work in radio or television.

Honor Needham's years of society strengthening

The March of Dimes Birth Defects Foundation celebrated its Golden Anniversary and as part of this birthday celebration, the foundation honored the nursing profession for being "instrumental in helping to

achieve its mission."

Various recognition ceremonies were held statewide for nurses who best exemplified the nursing profession. Locally, Genevieve Needham, R.N., was honored by Barbara Richardson, Lake County coroner, at a presentation held at Saint Therese Medical Center.

"Throughout her 38 years at Saint Therese Medical Center, Genevieve Needham has been strengthening our society - the unborn child, its mother and father, brother or sister, through her commitment to healthy infant development," Richardson said.

Needham began her nursing career at Saint Therese in 1945 when she graduated from the Saint Therese School of Nursing. During that time she also pursued coursework at DePaul University, Chicago.

From 1945, to 1961, Needham worked at Saint Therese, where for a while she was a nursing instructor at the school. In 1961, she left the medical center for four years as a fourth grade teacher. Needham returned to Saint Therese in 1966 to work as the head nurse of the obstetrics unit. In 1967, she was appointed supervisor of the unit, a position she holds today under the title of maternal/infant nurse manager.

Needham was instrumental in developing many of the unique services, classes and procedures for the obstetrics unit. By 1970 she had established prenatal classes that taught mothers proper physical selfcare and thus contributed to healthy infant development.

"I have been teaching classes for

Coroner Barbara Richardson, Genevieve Needham, R. N.

over 20 years, have seen 7,000 couples and still enjoy it," Needham said.

She implemented concepts of family-centered maternity care (the first such program in Lake County); sibling classes and a sibling visitation room; and the use of "birthing rooms," which provide a comforting, "home-like" atmosphere at delivery.

As nurse manager, Needham is responsible for labor and delivery, post partum, the newborn nursery and gynecology. She oversees every aspect of management and is responsible for staffing, teaching staff and patients.

Perhaps the strongest example of her commitment to her profession is the "extra touches" she has given to the unit, such as the hand-knit caps each newborn receives, or the handmade Easter baskets.

Wins \$4,000

Kimberly Isaacson of Antioch, has fun Darlene Siggeman, Round Lake Beach, hugs son Steve, 12, for giving her the final winning number in WLS Radio's cruise to Bahamas with Nassau first Secret Serial Number Contest. Siggeman, who had tried to win many times before, was successful at being 20th caller on Friday, March 25, having all right numbers and won \$4,000. She is married, has three sons and works parttime.

Marriott's new man

Marriott Hotels and Resorts Corporation has announced that Richard Feller is new general manager of Marriott's Lincolnshire Resort in Lincolnshire. Feller assumes his new duties as manager of 400-room resort after serving five years as general manager of Marriott Hotel in Schaumburg. He replaces former Lincolnshire manager John Morison who takes over Feller's post in Schaumburg.

Carmel takes tropical trip as 'South Pacific' opens

Rehearsals are underway for the Spring musical production at Carmel High School in Mundelein. The Pullitzer prize-winning "South Pacific" will be presented in the Carmel High School auditorium on April 21, 22, and 23 at 8 p.m. and on Sunday, April 24, at 2

Tickets are \$5 for adults and \$4 for senior citizens and students. All seats are reserved, and tickets may be purchased by calling Carmel High School at (312) 566-8440.

Adapted from James Michener's "Tales of the South Pacific", the musical takes place on a South Sea island during World War II. Cast as

Nellie Forbush, a young Navy nurse, are Jenny Hilliard, Great Lakes, and Jackie Bond. The middle-aged Frenchman who is attracted to Nellie, Emile De Becque, will be played by Eric Bodo and Jim Seitz. Playing the unforgettable role of Bloody Mary will be Angie Rivelli, Gurnee, and Joyce Thompson.

Arriving on the island with an assignment to persuade Emile De Becque to accompany him on a secret mission, Lt. Joseph Cable of the Marines will be portrayed by Geoff Barker, Ingleside, and Daniel Galo.

Their task is to hide out on a Japanese-held island, watch for enemy ships, and convey this information to their own pilots, who will then use the intelligence to attack the Japanese convoys. Nellie is asked to obtain all the information she can about the Frenchman and then pass it on to the island's commander.

Meanwhile, Joe Cable is persuaded to take a trip to the mysterious island of Bali Ha'i where he meets Liat, Bloody Mary's beautiful daughter. Kristine Swift, Hawthorn Woods, and Lori Van Erden, Wildwood, have been doublecast as Liat. The remainder of the show deals with the involved relationships between Emile and Nellie and between Joe and Liat.

The show will be directed by Elizabeth Kurowski and Kenneth Smouse, Antioch. The choreographer will be Donna Pederson.

Also in the show are Dave Sanders, Mundelein; Terry McEnroe, Ingleside: Mike Monahan, Great Lakes; Scott Smith, Lindenhurst; Jim Rix, Lake Villa; Greg Fetter, Mundelein, and Renee Young, Mundelein. French women; Jenny Muraski, Mundelein; Rebecca Struempler, Great Lakes; Shannon Fitzgerald, Wildwood; Megan Janiszewski, Wauconda; and Laura Pastore, Wildwood.

Student Director is Kelly Kristan of Round Lake.

'Frogs' for select few hard core buffs

William Shakespeare was right: "All the world's a stage." To prove it, the Pegasus Players, in a rare production, are presenting "The Frogs" at the swimming pool of Chicago's Truman College. And it's making a few waves for novelty alone.

Originally produced in 405 B.C. by Greek satirist Aristophanes, the current "Frogs" is based on a book

by Burt Shevelove; lyrics and music were adapted by Stephen Sondheim.

The one-act production, directed by Victoria Bussert, consists of 27 actor-singer-swimmers and five musicians who follow the journey of Dionysus and Xanthias into Hades where they hope to bring writer Bernard Shaw back to earth.

Along the way they encounter a steamy fertility dance and later a grand duel -- all verbal -- between Shaw (Brian-Mark Conover) and Shakespeare (Don Mayo). In between the literary squabbling, there's plenty of acerbic social commentary.

"The Frogs" is an ambitious, novel undertaking, an event in local theater history. Obviously much thought went into the set, costumes and lighting. But the fact remains, despite the often-charming Sondheim songs and the well-synchronized acquatic choreography, this play is lean and dated from a substantive point of view.

Its appeal will be to a narrow band of hard-core theater buffs on the one hand and to the so-called "in crowd" with an incessant thirst for novelty on the other -- very little in between.

Seats are provided in an overhead gallery and, for the venturesome, at poolside, with shoes and socks checked at the door. "The Frogs" runs through April

ASK TONI

Actress Jane Seymour was formerly a ballet dancer

By Toni Reinhold

Wasn't Jane Seymour one of the James Bond girls? I say she was, but my wife doesn't think I'm right. I know I am - but I just can't remember which Bond film Seymour appeared in. - K.C.,

Jane Seymour

Seymour, once a dancer with the London Festival Ballet, played her first major film role in the Bond thriller "Live and Let Die" (1973). Look for her in Sunday's CBS movie "The Woman He Loved."

How old is Peter Tork of The Monkees? Where was he born? - E.S., Athol, Mass.

Tork was born in Washington, D.C., on Feb. 13, 1944, the son of an economics professor. Before landing a role on "The Monkees," which aired from 1966 to 1968, he was a member of a folk group called The Phoenix Singers, After "The Monkees" left the air, he tried unsuccessfully to continue his music career, then turned to teaching Eastern philosophy. But in 1986, he joined Davy

Jones and Micky Dolenz for a reunion tour.

Does Neil Diamond plan to tour this summer? I heard he's going to star in a oneman show on Broadway. Where can I write to him? -A.M.I., Tisdale,

Saskatchewan Diamond's publicists say they have no word from Neil about a Broadway show or a summer tour. His latest record, "Hot August Nights II," is a live album. Send mail

Roskin, 45 W. 34th St.,-New York, NY 10001. Is the actor who plays Wallingford on "Another World" the same actor who played the wizard in "The

in care of Solters and

Wizard"? - K.F., Peoria, Ill. Brent Collins, who died last January, played Wallingford. David Rappaport played the title role on the short-lived CBS series "The Wizard."

Where can we write to the stars of "Murder, She Wrote" and "Matlock"? -L.D.J., Mount Vernon, Ohio Send letters to the cast

of "Murder, She Wrote" in care of the series at Universal Television, 100 Universal City Plaza, Universal City, CA 91608. Members of the "Matlock" cast receive mail at 10202 W. Washington Blvd., Culver City, CA 90230.

(Send your letters to Ask Toni, United Feature Syndicate, 200 Park Ave., Room 602, New York, N.Y. 10166. Due to the large volume of mail, personal replies cannot be given.)

THIS WEEK'S

BY SALOME

Weekly Tip: Be faithful to your friends.

Aries (Mar. 21-Apr 19) Your creativity and self-expression is high now, so get your new ideas down on paper. Stay motivated. Brainstorming with friends will pay off later.

Taurus (Apr. 20-May 20) Your newfound high energy level has you involved in travel and socializing. Your charismatic personality and sense of humor put you in the spotlight. Gemini (May 21-June 20) The cycle is about to begin again, and your focus is in finances. Profitable results from col-

laborations with adventurous people can prove delightful. Cancer (June 21-Jul 20) Try to keep your balance as you ride the roller coaster of life. Concentrate on talks which

will increase communications among all family members.

Leo (Jul 21-Aug. 22) Your intuition is functioning well, so trust it when it comes to business dealings. Your ideas will play an important part in big affairs. Romance is prominent.

Virgo (Aug. 23.-Sept. 22) You feel decisive and ready to take action; however, you must pace yourself. Invest some quality time concerning your romantic situation. Take a break. Libra (Sept. 23-Oct 22) Your complacent attitude is becoming bear-like as your hurried and frenzied life starts to get the better of you. Take care of your fragile nerves now.

Scorpio (Oct. 23-Nov. 21) That overly optimistic attitude concerning investments could lead to disaster, so be cautious. Avoid negative confrontations at all costs now.

Sagittarius (Nov. 22-Dec. 21) Your emotions are at their most intense level. Proceed with caution. Use your passion to your advantage — get ahead with some creative work. Capricorn (Dec. 22-Jan. 19) You are focused on your goals now, so keep on track. Financial cooperation is vital for current transactions. Put off party time until the weekend.

Aquarius (Jan. 20-Feb. 18) The planets in your sign emphasize improved communications with business allies, as well as with those in your personal life. Keep your eyes open.

Pisces (Feb. 19-Mar. 20) Your creative imagination is soaring! Use this to your advantage. The new circles you are traveling in promise to bring refreshing, intelligent faces.

If you were born this week, some people might think you are vulnerable, fragile and sheep-like in your demeanor, but they are wrong. Instead, you reserve your strong and unshakeable manner for when you need it. When you do call on these resources, however, your rage is unmatched. When it comes to friends, you have more than most. Because of this trustmenthy quality your appries are few and your this trustworthy quality, your enemies are few and your friends are many. ©1988, McNaught Synd.

irst step in what may turn out to harathon effort, or a false start, ken to initiate commuter rail on the former Soo Line trackage h the nothwest suburbs.

eeting was held jointly by the Suburban Mass Transit District RAN) and Metra, the commuter oard of the Regional Tranion Authority (RTA) on Wed-March 23, at the Buffalo Grove Hall to discuss feasiblity and al concerns surrounding the

proposed route along former Soo rackage would provide rail from the communities of lein, Vernon Hills, Buffalo Wheeling and Mt. ct/Prospect Heights to downhicago. Metra, which submitted posal, recommended that three ur trains in each direction be etween Mundelein and the and Northwestern (CNW) I via a connection at Des to the CNW Northwest Line. timated travel time between ein and downtown Chicago is 49

roposal was well received by the As Buffalo Grove Village nt Verna Clayton said, "its not that you have a project that the wn is in favor of." But there is cloud looming over this sunny

on: funding.

timated by Metra that the total cost of getting this project off the ground will be \$49.3 million. This inthe cost of four locomotives, 20 to be ecked commuter cars, conecked commuter cars, conn of stations, parking lots and truction of the rail connection Plaines. First year operating s, not including fees or lease s to the Wisconsin Central id, owner of the old Soo Line are estimated at \$2,386,300.

First year revenues of \$2,125,200 are projected.

Dunald Udstuen, representing Metra, said, "our budget is just under \$100 million. There is no way we can take half our operating budget and sink it into getting a project like this started without hurting our on-time commuter performance on our other lines." Udstuen expressed his concern that while the funding may be a problem now, the possibility of beginning this service should not be abandoned. "Right now the money isn't there to make it happen," Udstuen said. "But that doesn't mean we should give up the idea. We just need to be resourceful," he added.

Metra emphasized that the success of this project depends on the extent to which direct costs to Metra are minimized. Among the possible sources of capital mentioned by Metra was a state gas tax which is being considered by the governor and state legislature, the revenues of which may be diverted to mass transportation.

"Contributions from the local communities being served would also be needed in the way of stations, land, parking, etc. This would also bring the

cost down." Udstuen said.

To find a workable solution to the funding problem, John Barriger, former chairman of the District's rail committee suggested the formation of an ad hoc committee made up of "identified interests" from the communities involved. "The committee would work with all the communities and interests, such as real estate developers, to help bring this project home," Barriger said. "This committee would function until the project was either completed or abandoned," he added.

"We are ready, willing and able to talk seriously about putting this together," Metra Chairman Jeff Ladd told everyone assembled. "We just

don't have the money."

Chain agency ups regatta fee

Special events user permit fees have been increased to \$100 by the Chain-O-Lakes Fox River Waterway Management Agency board, according to John Soffietti, chairman.

These Class F fees cover regattas, boat races, fishing derbies, etc. Former charge was \$25.

Each event is limited to days. By special request, however, the board may extend the event for additional days and fix an additional user fee, or waive same.

All boats used on the Fox River chain must be registered with the agency. Boat user fees remain the same as last year, ranging from \$10 to \$25.

All non-motor powered boats that are no more than 16 feet long are free. The user fee is \$10 for boats over 16 feet long without any motor and for those powered with a motor of less than 10 horsepower.

Boats up to 25 feet long, with a motor of 10 horsepower or more, cost \$25. Those 25 foot or longer with the same size motor pay \$50.

For any class of boat, a temporary sticker costs \$10 for a period not to exceed five consecutive days.

Commercial and livery operators are charged \$50 each for the first two boats, plus \$1 for each additional boat registered to the same owner.

An individual who owns three or more boats registered in his or her name is required to pay the full user fee for the two largest boats plus \$1 for each additional boat.

The contest begins April 1, and en-

ttorneys for Fox Lake and O'Hare elopment Corp. are writing the preannexation agreement. Several more steps of annexation and project approval remain before work could commence.

Annexation will cover nothing but the Holiday Park grounds. The only existing homes affected will be those located within the park itself.

Proposed conversion of Holiday Park will include a 125-room hotel, nine-hole golf course, and large health club. There will be single family houses and cluster homes valued around \$100,000.

Only the hotel will be open to the public. The facilities can be used by people staying at the hotel or who are residents of the complex or of the Village of Fox Lake.

Midlane 5K run set for April 4

Applications are still being excepted until April 4 for the second Annual Waukegan-Midlane Country Club 5K run or walk race.

The TAC certified 3.1 mile race is set for Saturday, April 10 at 9 a.m. and start and finish is at Midlane Country Club, 14565 W. Yorkhouse Rd., Waukegan.

Entry fee is \$7 which includes a race t-shirt and race banquet following the finish at Midlane Country Club. All proceeds will go to the Raidogs Waukegan Youth Center in Waukegan.

"At this time we have a total of over 150 runners and walkers coming from all over Illinois to participate in our race. Entries are coming from Batavia, Morton Grove, Chicago, Kenosha, and

Palatine as well as all of Lake County. The count should reach 600 by the April deadline," stated Debra Davis, special events director.

Last year's first place winner was Reo Rorem of Charleston, Ill. with a time of 15.31. Female winner was Pamela Uhrich of Round Lake Beach with a time of 18.51.

In the walkers category, first place went to Neal Schuster of St. Francis, Wis. with a time of 27.32 and Dee Krabel of Zion with a time of 38.41.

The walkers category has been expanded this year to award winners in each of the eight age groups, and the anticipated number of walkers entering the race is 200.

Prizes will be given to first place in each age

group as well as overall first, second and third place male and female finishers. Overall winners will receive an overnite weekend package in Lake Geneva at the Interlaken Spa and Resort May 6-8 plus entry in the Lake Geneva Marathon or five mile walk on May 7, and \$75 in spending money sponsored by the City of Waukegan.

Prizes included in all categories include a Midlane Country Club gift certificate, City of Waukegan cash prize, subscription to Illinois Runner Magazine, 5K Race trophy and visor, and entry in either the Lake Marathon/five mile walk or Lake Geneva Marathon/five mile walk.

BEST FOOT FORWARD

FROM THE OFFICE OF DR. PAUL ABLER

THE STRESSES **OF RUNNING**

Why is running so much more stressful on the body than walking? True, they're similar: the foot makes contact with the ground, the heel is lifted, and the toe propels the foot forward. In running, however, the foot touches the ground for just 4-second or less versus 4/5-second during brisk walking.

In addition, running puts much more stress or force upon the feet: three times a runner's

or force upon the feet: three times a runner's

or force upon the feet: three times a runner's body weight on a level surface, two times body weight running uphill, and four times body weight running downhill.

According to scientific measurement, total force which must be dissipated by the body of a runner can range from 17 to 21 times body weight. If the muscles are fatigued, more force is absorbed by the bones; this sets the stage for joint injuries and/or stress fractures.

What does he see as the reason for this success? "We're a warehouse, not a fancy furniture store," he said. Schweickert stressed that rather than spend a lot of money on the store itself, he and his wife Gail and their staff (which totals five people) concentrate on keeping prices as low as possible.

"In the summertime, if its 90 degrees outside, it might be 85 in the store," he said. "The money that we save on air-conditioning helps keep our prices lower."

"I'll admit we're a little off the wall," he laughs, "and we've had some people turn around and walk out, but most people appreciate what we're doing."

Schweickert said Beacon's has been in business for six years. They started with 2,000 square feet and now have 15,000.

As for the store's name, Schweickert said his wife pointed out that "the Bible tells us to go out into the world and be beacons and let our light shine."

"We're just a darn nice group of people who want to help other people get what they need at prices they can afford and that's what it's all about," Schweickert said.

Tennis meets near

It's time for weekend tennis players and serious players alike to begin to warm up for the third annual Penn -Coke- Lakeland Newspapers tennis

The series is expanded this year, as 10 sites will be hosting tournaments. More than 100 players have competed in the first two years. Fred Buska won the championship in both 1986 and 1987.

This year's series schedule is: May 20-22 at Gurnee (312) 623-7788; June 2-5 at Vernon Hills (312) 367-7270; June 10-12 at Warren Twp. (312) 244-1101; June 18-19 at Lindenhurst (312) 356-0650; June 24-26 at Mundelein (312) 566-0650; July 9-10 at Zion (312) 746-5500; July 14-17 at Waukegan (312) 662-0186; July 22-24 at Grayslake (312) 223-2404; July 30, 31 at Libertyville. (312) 362-7490 and Aug. 5-7 at Round Lake (312) 546-8558.

The tournament championship will be played at Mundelein on Aug. 12-14.

Set tournaments

Dug Out Park in Trevor, Wis. has set the dates for its season-opening tournaments. Tournaments will be held for men's 12 inch, 16 inch softball and co-ed volleyball.

On April 15,16 and 17, the Spring Fling 12 inch slow pitch tournament will be held. The entry fee is \$80:

Next on April 22, 23 and 24, the annual Early Bird 16 inch tournament with an entry fee of \$100 will be featured. On the same weekend, a spring tune-up tournament will be held for co-ed volleyball teams. The entry fee for this double elimination tournament is \$40.

Trophies, t-shirts and traveling expenses will be awarded for each tournament. For more information, call Tom Furlan, tournament director, at (414) 862-9936 or (312) 395-5788. Dug Out Park is located on Hwy. 83 two miles north of the Illinois-Wisconsin state

Free-throw meet

The best free-throw shooters in Lake County will be gathering for the second annual free-throw shooting competition hosted by the College of Lake County on April 8.

One boy and one girl will be participating from each school in Lake County. Trophies will be presented to the first and second place winners in both boys and girls divisions.

The action begins at 7 p.m. with a preliminary round. Each participant will shoot 25 free throws. How many he or she makes will determine seeding for the single elimination tournament. Judges will be at every basket counting the shots.

During the championship round, only one basket will be used. The girls' championship will be first.

Wrestling clinic starts

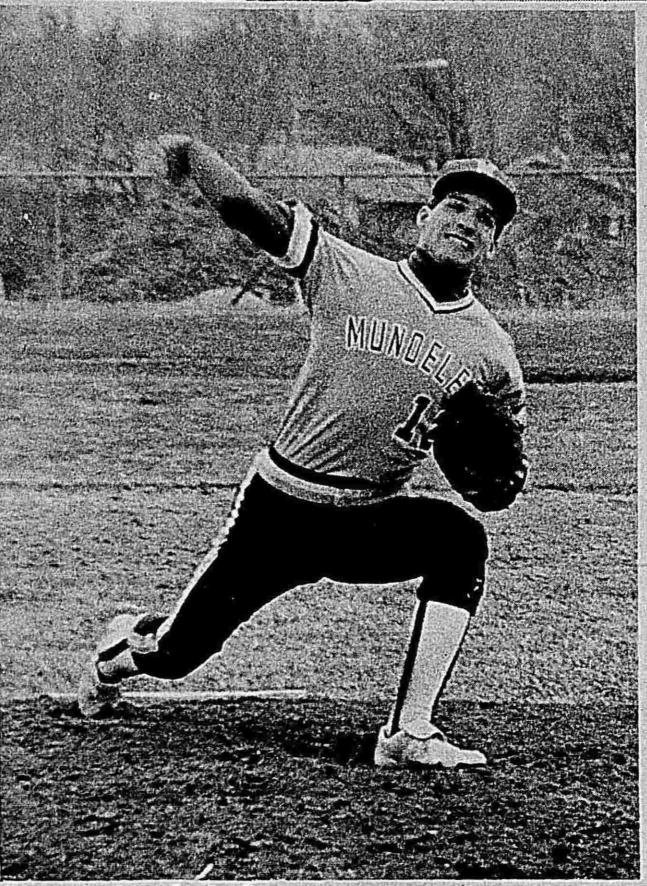

Warren Twp. High School wrestling Coach Tony Filippo and Warren wrestlers will be conducting a wrestling clinic in April.

The clinic will meet April 9, 16 and 23 from 10 - 11:30 a.m. at Warren's fieldhouse. The clinic is sponsored by the Gurnee Park Dist. and registerations are being taken at the Gurnee Park Dist. offices in Viking Park, 4374 Grand Ave. in Gurnee.

Fun and fundamentals of wreating will be stressed.

The boys-only clinics are open for fifth through eighth graders. There is a \$3 fee.

For more information, call the Gurnee Park Dist, at (312) \$23-7788.

CLC netmen boast depth for new season

As far as College of Lake County tennis Coach Lance Laverty is concerned, the Lancers may not have the standout player this spring but will be boosted by several players contributing

"I think we have a lot of depth on the team. I think we should do well in the Skyway Conference," Laverty said.

The Lancers open the Skyway play April 5 in Grayslake against Elgin.

CLC is used to success both on the conference and national levels. Last year the entire team qualified for N-JCAA nationals in Tyler, Texas.

Sophomores Shaun O'Neill from Round Lake and Steve Quigley from Great Lakes will give the Lancers their most experienced players. O'Neill is the team's lone returning letterwinner off last year's team. O'Neill was CLC's sixth player in singles in 1987 and figures to move up a notch or two this spring.

Jim Carlson, a soph and Mundelein product, will likely join Quigley as the top doubles team. The second and third doubles teams are still undecided. "They're all pretty close," Laverty said.

Four former Round Lake netters will be hoping to contribute to CLC.

Freshmen on the roster include Jason Becker from Winthrop Harbor, Darren Busse from Wauconda, Dave Davis from Gurnee, Dennis Dressel from Round Lake, Jim Felty from North Chicago, Brett Jandula from Antioch, Jim Mauck from Round Lake, Ray Peggy from Waukegan, Eric Smith from Zion and Greg Smith from Round Lake.

Randy Johnson, who was, in Grayslake's top doubles tandem last spring, also joins the CLC netmen.

Gentry looks to continue CLC sports success

A quick look out of Curtis Gentry's office window and one can easily see the success College of Lake County sports teams have had over the last 20 years.

The school's 11 Skyway Conference all-sports champion banners hang on the wall of the Physical Education Center at the Grayslake campus.

Although new to CLC, Gentry is aiming on keeping the Lancers successful in all sports as the school's new associate dean for physical education and athletics.

"There are a number of things I can do to help physical education and athletics factions," Gentry said.

Gentry, who has coached and played football, said he was looking to get back into athletics administration when the CLC position opened up.

"Chicago is my second home," Gentry said.

There are several advantages a community college has over a four-year university, according to Gentry. "A community college can reach out to the community more and be more of a service," Gentry said.

Before coming to CLC, Gentry served as director of continuing education at a college in Waco, Texas.

One of the changes Gentry is considering is a change in distribution of recruiting information. Coaches would send one form letter to prospective athletes about CLC and then follow up from there. With only men's basketball Coach Bruce Smith as the lone-fulltime coach, the coaches cannot spend that much time recruiting, Gentry said.

Gentry played three seasons for the

Bears in the mid 60s as a defensive as a defensive back. We were playing player.

"In the pros I learned some organizational skills that will help me in this job," Gentry said.

He has already had one success at

Curtis Gentry

CLC. In February he oganized a basketball game fundraiser for the softball program featuring several Football League alumni. "I made some lasting friendships in the pros and 96 percent of the guys who said they would come to the event came," Gentry said.

Gentry is best known in the the "bump-and-run" style of defense. The Bears' Jim Dooley invented the strategy under a different name.

"Dooley realized I was fast and quick thwestern before coming to Grayslake.

the Minnesota Vikings one day and Doley said to play their receiver the same way they play a basketball fullcourt press. After the play started, I would give them a two-hand shiver and run with them all over the field," Gentry remembered.

Norm Van Brocklin, then coach of the Vikings, complained that the Bears were not playing football with the strategy. Soon other NFL teams, looking for an edge against speedy wide receivers, started to use the play.

But 20 years later, they are not doing it properly, according to Gentry. "I see a lot of defensive backs playing it wrong. They give the wide receiver too much room. The way I played it, they only had one way to go," Gentry said.

Like all players, Gentry had to come to come to grips with the reality that his playing days were over in 1969. He said owners could do more to help players in post-football life.

"The owners could do more to help the non-superstar," Gentry said.

No one had agents when Gentry negotiated his contracts with George Halas, either.

Gentry said the reason that leagues former Chicago Bears and National such as the World Football League or United States Football League have folded is simple: no TV revenue. "It takes a number of years before a team pays for itself," he said.

The Arena Football League, which professional ranks as the originator of made its debut last year, appeals to former player.

Gentry has coached at Holy Cross College in Worchester, MA and Nor-

Grayslake softball boasts experience as season starts

Kristi Blasius, Alice they did. They know what Norton and Julie Tortici all have something in common.

In addition to being appearence members of the 1988 Grayslake Rams softball team, they all have vivid memories of a certain day in May, 1986. They were sophomores then and the Rams seemed to have little chance to advance past the Warren regional. After all, 7-13 teams don't win regionals, right?

But the Rams proved the experts wrong, upsetting Warren 6-3 to claim the regional title. The team was then ousted quickly 14-0 by New Trier in the Barrington sectional.

Coach Elaine Frantz feels that experience could be a plus as the Rams prepare for the '88 season opener April 5 against Zion-Benton.

"The seniors were regional champs and they want to repeat what it feels like to be a winner," Frantz said.

There was no sectional Grayslake last year, as the Rams were 9-11 overall and 8-6 in the Northwest Suburban Conference.

Some 32 players came to the team's initial organization meeting. Twenty-two came to the first practice and Frantz had to cut that number down to 17.

Frantz said depth will be one of the strengths for the Rams this spring. "Depth and experience will be our strengths," she said.

Norton returns as the team's top pitcher while Blasius is vieing for an outfield position and Tortorici was last year's starting catcher. Norton made the all-NWSC team as did senior first baseman Laura Phillips.

Lori Collins returns and she started at second

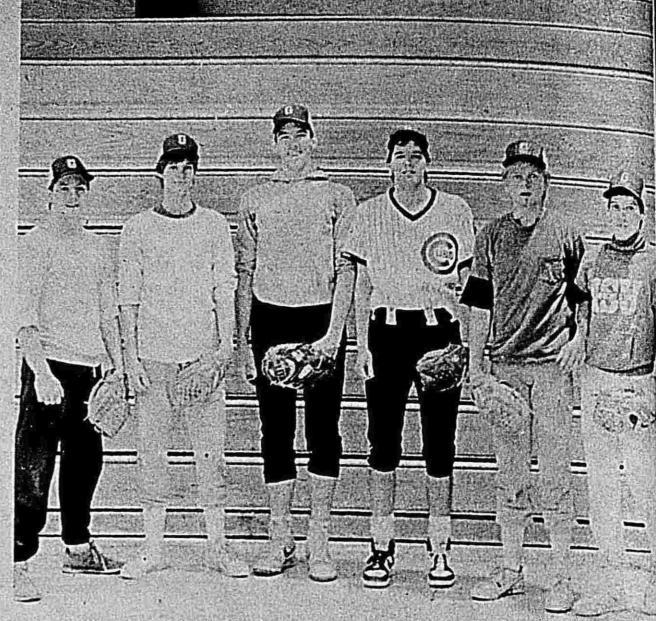

base last year. Junior Denise Schlung, an outfielder and third baseman-catcher Gina Grote were promoted from the sophomore team last year.

Stephanie Caliendo, a junior, is a transfer from Kelli Wisconsin. Kerrigan, a senior outfielder, is hoping to bounce back following a knee operation last year.

Frantz said having talented players to replace starters has made competition for jobs a plus.

Last year's team needed work on hitting, and the coach sees improvement in that area. "They are all conecting with the ball," Frantz said.

While Grant, which won a regional tournament at Antioch last year, and Lake Zurich appear to be the NWSC teams to beat, the Grayslake coach predicts a wide-open race.

Grayslake veterans

Grayslake's baseball team will return six lettermen when the Rams open new season next week. Lettermen returning are, from left: Che Kearby, Jim Neuman, Pete Lupori, Gary Hook, Shawn Mauritz and Tim Hough.

Defense, hitting to pace Panthers

When it comes to baseball, they are two ingredients no team can be without if it expects to win.

"Defense and hitting," Round Lake Coach Jim Prorok said when asked the annual question about his team's strengths.

And the Panthers, who boast their 1988 hopes on four returning seniors, have good reason to mention those two attributes.

The Panthers, 14-15 last year, return such key position players as Keith Horn, a second baseman and pitcher; Harry Radenborst at catcher; Todd Collins at first and pitcher Greg Krause.

"We have a good nucleus of players who saw some playing time last year," Prorok said.

In addition to defense,

the Panthers return one of last year's biggest threats at the plate in Todd Collis. Collis batted .272 last year.

During pre-season drills, the coach said he has been working on the mechanical fundamentals of his pitchers. "We talk a lot about situation baseball. Once you get outside, then you can work on the execution," he said.

The Panthers had 22 players report to preseason meetings. "We have some pretty good competition for jobs," Prorok said.

The mentor, who was an infielder at Round Lake in the 1960s, has set achieving a winning season and being comeptitive in the Northwest Suburban Conference race as chief objectives.

THERE'S NOTHING PRETTY ABOUT A CHILD WITH A PROBLEM

We all picture our children growing up happy and well-adjusted. Yet sometimes their lives take a painful turn. When your eight-year-old boy suffers from depression. Or a learning disability holds back your little girl.

For over 30 years, Forest PsychCare Hospital has paid special attention to children who need help. We know the symptoms of attention loss, hyperactivity, or stress. We treat kids from three to twelve who are withdrawn, disruptive, different, unreachable.

And we help. The child, the family, the home. Results as beautiful as the lives we touch. Call and talk to our professionals, today. 312-635-4100.

Center Todd Culotta led conference scoring with 18.4 points per game. Ken Rasbid added 11.6 points per game and John Wilhelm 9.5. Inividual leaders for Grant were Rasbid and Culotta, both selected to the all-NWSC team.

Forward provided solid lane defense, rebounding and scoring. Guards Jim McGeever, Dave Sparks and Kip Paul teamed up at the guard positions. Juniors Kevin Freund and Paul will anchor next year's team.

Returning Blue Devils

Warren's baseball team returns seven letterwinners to this year's squad. Blue Devils after spring break trip through southern Illinois, will play at Round Lake April 4 and Grant April 8 in non-conference games. First row, from left: Steve Zager, Mike Graham and Chris Lux. Second row: Dave Davis, Derek Shelton, Brent Howard and Steve Swanson.

Grayslake netters planning challenge for NWSC's elite

Grayslake boys tennis Coach Paul Keller knoes traditional powerhouses Lake Zurich and Marengo will probably be in the high rent district of the Northwest Suburban Conference race.

new

The Rams program has done quite well for itself, too lately, as Grayslake is coming off a 5-2 league dual meet season. That, coupled with the return of key players Kevin Riedel and John Floyd and Keller has good reason to hope for a NWSC title.

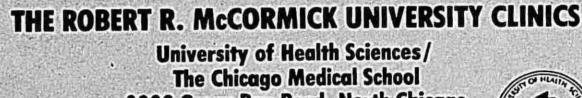

"If we were able to get all the men out and eligible (for the team) we would be one of the main contenders. I still think we will finish in the upper half of the conference." Keller said.

Keller and Co. were working on final lineup plans last week prior to the April 5 opener at home against Mundelein. The coach said that balance will be one of the strengths of this spring's contigent.

Seniors Mike Ryan and Floyd won the No. 2 doubles title in the conference last year and figure to move up to the top position this year.

Kevin Riedel played doubles along with Randy Johnson last spring. Johnson has since been graduated, though and Riedel is hoping to make his mark in singles play.

Keller said the number two doubles tandem is yet to be decided.
